PROFESSIONAL SUMMARY

Java Full-Stack Web Developer and Technical Mentor specializing in scalable backend microservices, relational database architecture, and AI-driven applications. Proven experience in mentoring students in Data Structures & Algorithms (DSA) and MERN stack concepts, evaluating technical problem-solving abilities, and building secure production-ready platforms using Spring Boot and PostgreSQL.

EXPERIENCE

Technical Mentor - Kalvium

Oct 2024 – Present

- Conducted comprehensive live sessions focused on Data Structures & Algorithms (DSA), MERN stack concepts, and relational databases.
- Certified candidates by evaluating 3-question proctored exams and conducting technical interviews.
- Assigned live coding challenges and conducted verification calls to confirm academic integrity and evaluate problem-solving abilities.

TECHNICAL SKILLS

Languages: Java, Python, JavaScript (ES6+), TypeScript, SQL

Backend Core: Spring Boot, Spring Security 6, Spring Data JPA, Hibernate, REST APIs, Gradle

Databases & Auth: PostgreSQL, pgvector, MongoDB, JWT, OAuth 2.0, RBAC, bcrypt

Frontend: HTML5, CSS3, React.js, Redux, Tailwind CSS

AI & Tools: RAG, OpenAI Whisper, Groq / Gemini APIs, Git, GitHub, Docker, Linux

KEY PROJECTS

LearnVault - AI-Powered E-Learning Platform

Java, Spring Boot, React, PostgreSQL, pgvector, NVIDIA NIM, Groq, Razorpay | [GitHub](#)

- Architected a full-stack e-learning platform with course management, 3-role RBAC, and secure video delivery.
- Engineered a custom RAG pipeline using NVIDIA NIM, Groq, and pgvector for low-latency AI query resolution.
- Secured APIs using Spring Security 6, JWT, and OAuth 2.0, and integrated Razorpay webhooks for automated checkouts.

VideoClipper - AI-Powered Short-Form Video Generator

Python, Flask, Whisper | [GitHub](#)

- Engineered a media pipeline with custom keyword and emotion scoring to extract viral segments from videos.
- Integrated Whisper for synced subtitles and dynamic subject-tracked cropping for social formats.
- Built a responsive Flask interface for seamless uploads and instant batch-exporting.

PromptKit - LLM Text Preprocessing Toolkit

Python | [GitHub](#)

- Published promptkit-1 to PyPI: sanitizes and standardizes LLM prompts, reducing token consumption and costs for downstream inference pipelines.

EDUCATION

- Master of Computer Applications (MCA):** Sikkim Manipal University, Sikkim, India
- Full Stack Web Development:** Masai School
